Annexure 4 - Summary Statement Of Significant Accounting Policies & Notes To Restated Consolidated Financial Information**Note 1. Company Overview**

EPW India Limited (formerly known as EPW INDIA PRIVATE LIMITED) (the company) is a limited company domiciled in India and incorporated under the provisions of the Companies Act, 2013. Its shares are not listed on any stock exchanges in India. The company is mainly engaged in the Business of wholesale trade of hardware and software information technology products. The company carries on its business in domestic markets and other markets.

Note 2: Significant Accounting Policies**2.1. Basis of Preparation of Financial Statement**

The restated summary statement of assets and liabilities of the Company as at 30 September 2025, 31 March 2025, 31 March 2024 and 31 March 2023 and the related restated summary statement of profits and loss and cash flows for the year/period ended 30 September 2025, 31 March 2025, 31 March 2024 and 31 March 2023 herein after collectively referred to as ("Restated Summary Statements") have been compiled by the management from the audited Financial Statements for the year/period ended on 30 September 2025, 31 March 2025, 31 March 2024 and 31 March 2023. Restated Summary Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations") issued by SEBI and Guidance note on Reports in Companies Prospectuses (Revised 2019) ("Guidance Note"). Restated Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the EMERGE platform of NSE in connection with its proposed IPO. The Company's management has recast the Financial Statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of restated Summary Statements.

The Restated Financial Statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Accounts) Rules, 2021.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013.

Principles of Consolidation

The Consolidated Financial Statements comprise the financial statements of EPW India Limited and its subsidiary. A subsidiary is an entity controlled by the Company. Control exists when the Company has the power to govern financial and operating policies to obtain benefits from its activities. The subsidiary is consolidated from the date control commences until control ceases.

Profits or losses of the subsidiary attributable to the pre-acquisition period are treated as a reduction in the cost of investment. Post-acquisition reserves are included in Consolidated Reserves.

Goodwill arising on acquisition represents the excess of (i) the cost of investment in the subsidiary, over (ii) the Company's share in the fair value of identifiable net assets at the acquisition date. Goodwill is capitalized and tested annually for impairment (AS 28).

All intra-group balances, transactions, and unrealized profits/losses are eliminated in full. Unrealized losses are eliminated unless cost cannot be recovered.

The financial statements of the parent and subsidiary are prepared using uniform accounting policies for similar transactions and events.

The subsidiary's financial statements used in consolidation are prepared as of the same reporting date as the parent. Where differences exist, adjustments are made for significant intervening transactions/events.

2.2 Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

2.3 Inventories

Inventories are valued at the lower of cost (on FIFO) and the net realizable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and

2.4 Depreciation and amortization

Depreciation has been provided on the WDV method as per the rates and in the manner prescribed in Companies Act, 2013.

2.5 Revenue recognition**Sale of Goods:-**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer which generally coincides with the dispatch/delivery of goods to customers and where there is a reasonable certainty of acceptance of goods by the customer.

Goods & Service Tax are not received by the company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Interest Income:

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

2.6 Tangible fixed assets

Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date.

Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalized and depreciated over the useful life of the principal item of the relevant assets. Subsequent expenditure relating to fixed assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Fixed assets acquired in full or part exchange for another asset are recorded at the fair market value or the net book value of the asset given up, adjusted for any balancing cash consideration. Fair market value is determined either for the assets acquired or asset given up, whichever is more clearly evident. Fixed assets acquired in exchange for securities of the Company are recorded at the fair market value of the assets or the fair market value of the securities issued, whichever is more clearly evident.

Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realizable value and are disclosed separately in the Balance Sheet.

Depreciation and Amortization**a. Property Plant and Equipment**

Depreciation on Plant, Property and Equipment is calculated on a Written down value method as per useful life of asset prescribed under Schedule II of the Companies Act, 2013.

2.7 Impairments

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. If this is the case, the carrying amount of the asset should be increased to its recoverable amount. That increase is a reversal of an impairment loss.

2.8. Cash Flow Statements

Cash Flow Statement is prepared in accordance with the Indirect Method prescribed in the relevant Accounting Standard. For the purpose of presentation in the cash flow statement, cash and cash equivalents includes cash on hand and other highly liquid investments with maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.9 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.10 Income taxes

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authority in accordance with the Income tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdiction where company operate.

Deferred tax on timing differences between taxable income and accounting income is accounted for, using the tax rates and the tax laws enacted or substantially enacted as on the balance sheet date. Deferred tax assets recognized only when there is a reasonable certainty of their realization.

2.11 Earnings per share

Basis of earning per share are calculated by dividing the net profit or loss for the period attributable to equity shareholder by the weighted average number of equity share outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholder and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive equity shares.

2.12 Provisions and Contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Such provisions are determined based on management estimate of the amount required to settle the obligation at the balance sheet date.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within control of the Company. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are not recognized or disclosed in the financial statements.

The Company shall estimate and recognise provisions for expenses at the year end in accordance with the applicable Accounting Standards.

2.13 Cash & Cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Cash flows are reported using the indirect method, whereby net profit before extraordinary items and tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.14. Segment Reporting

Company is operating under a single segment

2.15. Employee Benefits

Short Term Employee Benefits

The short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits

Defined Contribution Plans

The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is made. Company's contribution to Provident Fund and other Funds for the year is accounted on accrual basis and charged to the Statement of Profit & Loss for the year.

Defined Benefits Plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The company has recognized the gratuity payable to the employees, including key management personnel, as defined benefit plans. The liability in respect of these benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

2.16 Leases

Operating Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and loss on straight-line basis over the lease term.

3. Restatement adjustment

Restated Summary Statement Of Reconciliation Of Equity And Reserves

Notes To The Restated Consolidated Financial Information

Particulars	30 September 2025	31 March 2025	31 March 2024	31 March 2023
Terms and conditions of borrowings				
Note A: Loan from related party includes loan taken from director for working capital purposes which carries no interest and payable on demand.				
Note B: Loan from bank includes secured loan. The bank has sanctioned ₹15 Lacs and the loan was disbursed in February 2024. The loan is repayable in 13 equal monthly instalments starting from April 2024. The loan is secured by hypothecation of credit card receivables and loan mark on HF-38661841. The loan is personally guaranteed by the directors of the Company.				
Note C: Loan from bank includes secured loan carrying interest rate of 9.50%. The bank has sanctioned ₹19 Lacs and the loan was disbursed in September 2024. The loan is repayable in 36 equal monthly instalments starting from July 2024. The loan is secured by hypothecation of vehicle taken by the Company.				
Note D: Loans from Bank (Including Secured Overdraft Facility)				
The loan from the bank includes a secured overdraft facility. The applicable interest rate for this facility is determined as the sum of the prevailing Repo Rate plus a fixed spread of 3.25% per annum, along with any applicable statutory levies ("Interest Rate"). Interest is calculated daily on the outstanding principal amount. The Repo Rate used is the rate in effect one business day prior to the date of account opening, limit setup, or renewal. As of the issuance date, the Repo Rate was 6.50%, resulting in an effective interest rate of 9.75% (6.50% + 3.25%).				
The bank has sanctioned a limit of ₹100 million, approved in January 2025, with validity until January 2026. The facility is secured by:				
a. Immovable fixed assets provided by the director, and				
b. Current assets of the company.				
Additionally, the loan is backed by personal guarantees from the company's directors.				
Annexure 7 – Restated Statement Of Trade Payables				
Trade Payables				
Total outstanding dues of micro enterprises and small enterprises				
Total outstanding	1,296.35	637.56	632.29	512.60
Refer note 25 for related party transaction and balance outstanding as at 30 September 2025	1,296.35	637.56	632.29	512.60
Note: The Company has not accounted for interest provisions as per MSMED Act, 2006 as the company has made payments to MSME Vendors within contractual period which is exceeding the contractual time-limit as per MSMED Act, 2006 and the amount payable to them are agreed between the company and the vendors considering the contractual credit period and hence, no interest is payable.

Analytical ratios**Ratios for 30 September 2025 vs 31 March 2025 not prepared due to inappropriate period Comparison**

S.no	Particulars	Numerator	Denominator	As at 31	As at 31 March	% Variance	Variance Remark
				March 2025	2024		
				Current period	Previous Period		
1	Current ratio (in times)	Current Total debt	Current Shareholder's equity	1.23	1.12	8.91%	Not Applicable
2	Debt-equity ratio (in times)	Total debt	Shareholder's equity	2.32	0.24	89.46%	Significant increase due to new loan borrowings during FY2025.
3	Debt service coverage ratio (in times)*	Earning available for Debt Service (1)	Debt service (2)	14.79	1.55	89.54%	Driven by absence of loans in prior year (FY2024) and improved earnings in FY2025.
4	Return on equity ratio (in %)	Net Profits after taxes	Average Shareholder's Equity	139.17%	128.42%	7.72%	Not Applicable
5	Inventory turnover ratio (in times)	Cost of goods sold	Average inventory	4.58	3.78	17.35%	Not Applicable
6	Trade receivables turnover ratio (in times)	Revenue from operations	Average trade receivable	8.62	12.35	-43.39%	Decline caused by disproportionate growth in trade receivables relative to revenue.
7	Trade payables turnover ratio (in times)	Total Purchases	Average trade payables	8.48	2.83	66.61%	Increase is due to decrease in Overall trade payables for the company
8	Net working capital turnover ratio (in times)	Revenue from operations	Average Working capital	18.43	37.16	-101.57%	Majorly due to overall increase in receivables of the company
9	Net profit ratio (in %)	Net profit	Revenue from operations	8.13%	4.00%	50.83%	Majorly due to overall increase in operations and efficiencies noted in the Current Year
10	Return on capital employed (in %)	Earnings before interest and taxes	Capital employed (3)	82.08%	78.21%	4.71%	Not Applicable
11	Return on investment	Not Applicable	Not Applicable				

Note:

1. Net Profit after taxes + Non-cash operating expenses like depreciation and other amortisations + Interest + other adjustments etc.

2. Interest and lease payments + Principal repayments

3. Tangible Net Worth + Total Debt

Notes To The Restated Consolidated Financial Information

(All amounts in ₹ lakhs, except share data and where otherwise stated)

S.no	Particulars	Numerator	Denominator	As at 31	As at 31 March	% Variance	Variance Remark
				March 2024 Current period	2023 Previous Period		
1	Current ratio (in times)	Current assets	Current liabilities	1.12	1.02	9.01%	Not Applicable
2	Debt-equity ratio (in times)	Total debt	Shareholder's equity	0.24	2.82	-1054.38%	Principal reason for movement is on account of loan repaid during the year.
3	Debt service coverage ratio (in times)*	Earning available for Debt Service (1)	Debt service (2)	1.55	-	100.00%	No loans taken in the previous year (FY2023).
4	Return on equity ratio (in %)	Net Profits after taxes	Average Shareholder's Equity	128.42%	36.99%	71.20%	Principal reason for increase in profitability of the Company in the Current year when compared to previous year
5	Inventory turnover ratio (in times)	Cost of goods sold	Average inventory	3.78	1.84	51.47%	Principal reason for increase in Inventory Turnover ratio is on account of increase in sales as compared to the previous year
6	Trade receivables turnover ratio (in times)	Revenue from operations	Average trade receivable	12.35	18.53	-49.99%	Principal reason for decrease in this ratio is due to Increase in credit sales without timely collection of dues, resulting in higher outstanding receivables.
7	Trade payables turnover ratio (in times)	Total Purchases	Average trade payables	2.83	2.29	19.21%	Not Applicable
8	Net working capital turnover ratio (in times)	Revenue from operations	Average Working capital	37.16	64.17	-72.69%	Principal reason for increase is on account of increase in operations of the Company.
9	Net profit ratio (in %)	Net profit	Revenue from operations	4.00%	0.97%	75.79%	Principal reason for increase is on account of increase in operations of the Company.
10	Return on capital employed (in %)	Earnings before interest and taxes	Capital employed (3)	78.21%	31.22%	60.09%	Principal reason for decrease was majorly due to the fact the in FY 2023 the company was not doing major business but then starting doing well from FY 2024
11	Return on investment (in %)	Not Applicable	Not Applicable				

Note:

1. Net Profit after taxes + Non-cash operating expenses like depreciation and other amortisations + Interest + other adjustments etc.

2. Interest and lease payments + Principal repayments

3. Tangible Net Worth + Total Debt

Annexure 27 – Restated Statement of Earnings Per Share (EPS)**Earnings Per Share (EPS)**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effect of all dilutive potential equity shares which includes all stock options granted to employees. The number of equity shares is the aggregate of the weighted average number of equity shares and the weighted average number of equity shares which are to be issued in the conversion of all dilutive potential equity shares into equity shares.

Disclosure as required by Accounting Standard - Earnings per share:

Profit for the year

Basic weighted average number of equity shares outstanding

Basic earnings per share

Add: Dilutive impact of potential equity shares

Diluted weighted average number of equity shares outstanding

Diluted earnings per share

	2025	31 March 2025	31 March 2024	31 March 2023
Profit for the year	402.27	433.29	74.06	6.44
Basic weighted average number of equity shares outstanding	8,200,000	8,200,000	8,200,000	8,200,000
Basic earnings per share	4.91	5.28	0.90	0.08
